

# DEPARTMENT OF ENVIRONMENTAL LAW AND LEGAL ORDER

## EVENTS ORGANIZED

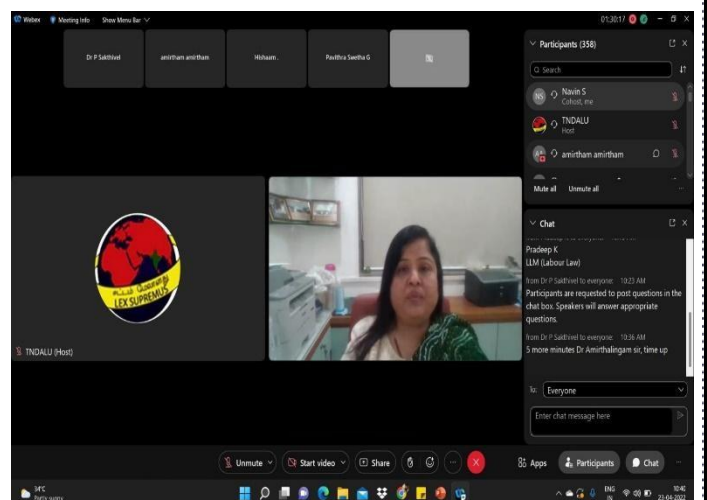

### Online National symposium on Sustainable Development and Legal Framework conducted on 23rd April

Sustainable Development is a broader term used in the environment, climate change, and development narratives for the past two decades.

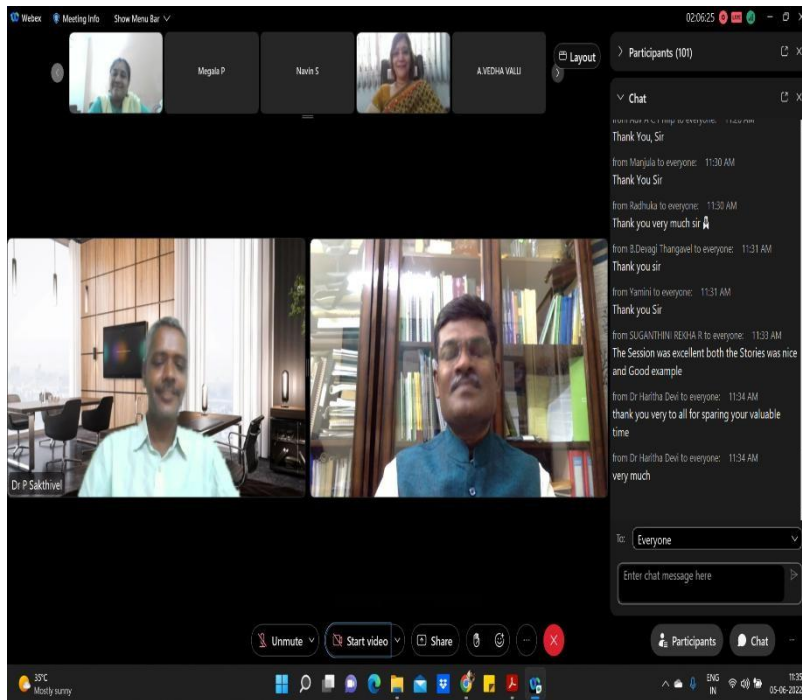

The idea of sustainable development gained momentum after national and international laws recognized them in their respective frameworks. Institutions and Policymakers have agreed to further the goals to be achieved through sustainable development.

In this context, we see the contextualization of sustainable development in the legal framework is essential for a broader and deeper understanding of our course of action to protect the future generations. We, at the Tamil Nadu Dr. Ambedkar Law University, bring in the senior and young scholars across India to discuss and strengthen the contours of sustainable development.

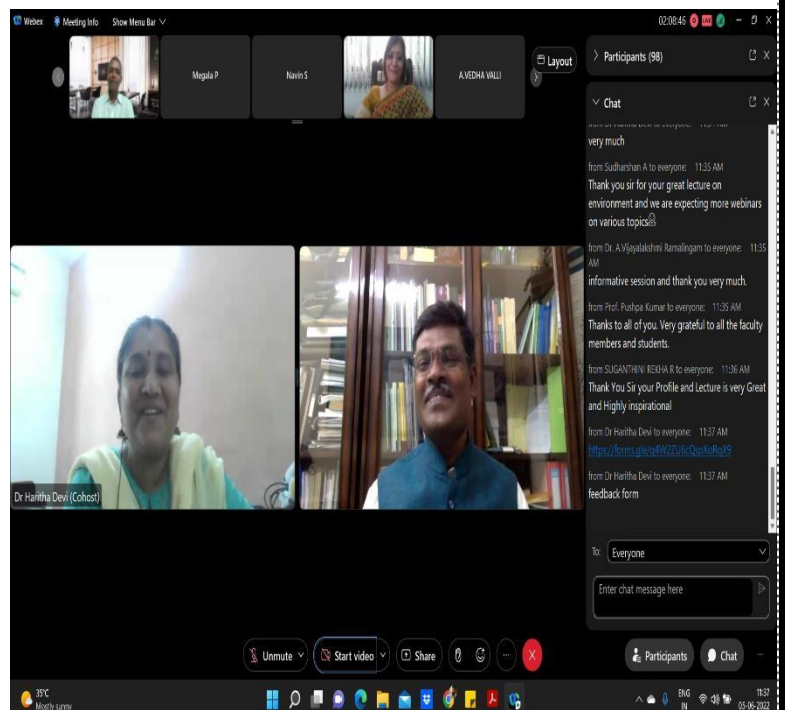

## National webinar on Climate change and India: The way forward conducted on June 5

India's Participation and Role in mitigating the effects of the Global Climate Change is paramount. In this context, a better Understanding and Conceptualization of Global Climate Change is mandated. Therefore, we, at The Tamil Nadu Dr. Ambedkar Law University, have organized this webinar to Analyze, Learn and Discuss the contours of Global Climate Change and how India can lead this global mission.

The world is currently in the midst of facing the biggest Global Crisis it has ever witnessed through Global Climate Change. Global Climate Change in the form of raising temperatures, receding glaciers, drying rivers, reduction in wetlands and aberrant and untimely weather conditions causing natural calamities and loss of biodiversity which affects the social, economic and cultural aspects of human life.

## Celebration of World Indigenous Day with Poster competition on August 9

International Day of the World's Indigenous Peoples is observed every year on August 9th. This day is set aside to honour the rights of indigenous peoples. The United Nations agreed to observe this day in order to recognise the accomplishments and efforts of the indigenous communities. We, The Department of Environmental Law in lieu of recognising the importance of indigenous community, celebrated world indigenous day by conducting poster making competition in our campus.

The Warli Tribe is an indigenous tribe, found in Western India. Portions of mountainous as well as coastal regions of the Maharashtra-Gujarat border are inhabited by the Warli tribes. Warli Painting is the folk painting of Maharashtra. The name 'Warli' is inspired by the largest tribe found in the northern outskirts of Maharashtra's capital Mumbai. It is dated back to the 10th century AD.

The name, 'Pithora painting' is after the god of the tribe – God Pithora (Pithora Baba). The Pithora artists who are well-trained and were responsible to develop this Pithora art are called Lakhara. The Pithora wall painting is done during auspicious rituals by the Lakharas. The prevalent belief is that with the Pithora painting on their house walls, they seek God's Blessing.

Madhubani is one of the ancient forms of painting in India. It is also known as Mithila painting as it originated and practised in Mithila region of Bihar in India and Nepal. Paints derived from nature is used, hands and twigs are used to paint. It characterizes complex geometric patterns. Women in every home in the region depict their thoughts and hopes in the form of Madhubani paintings

# International workshop on Preventing Next Pandemic: International Environmental Law as a Natural Remedy for Zoonotic Diseases conducted on 20th July

## OUTREACH ACTIVITIES

### Ennore Thermal Power Plant field visit went on August 17

The world is now calling out for transformation into renewable energy due to the drastic environmental impacts that is being caused by non renewable energy sources. One such is the Thermal power plants. Usage of Thermal power plants is one which acts as a positive and negative for electricity supply.

The amount of electricity drawn is only being talked much than the after effects of the plants. These plants emit much smoke and cause a great damage to a vast surrounding of it.

We, The Department of Environmental Law, visited and witnessed the ennore thermal power plant and had a brief discussion on fly ashes discharged from the plant. The pollution over water surface was observed and drastic contamination of water in the nearby river basin was also seen. Had a lecture on topic related to oil spills in Kasimedu fishing harbor, the intangible effects of the thermal power

plants and much more regarding pollution and environment by the Environmental Activist Nithyanath Jayaram.
