Given the ever-evolving nature of the Internet, focusing on the growth of Cyberlaw jurisprudence across the world for disseminating knowledge about the constantly changing cyber-legal trends impacting the use of computers, computer systems, computer networks, communication devices and also data and information in the electronic form acquires enormous importance. This International Moot is an opportunity to have a hands-on legal issues of cyberspace (related to Right to privacy, Obligations of Government and Intermediaries in cyber-crimes) to our budding lawyers.
